**Attach:** JNutr Suppl Rippe Fructose Triglycerides.pdf; JNutr Suppl White Misconceptions of HFCS (2).pdf

---

There is a supplement to AJCN just published on the Fructose conference held about a year ago hosted by USDA and ILSI. A number of papers were presented including one by Havel but I'll spare your inbox the dozen different articles. Attached are the papers by John White, CRAB's hired gun as well as by Jim Rippe, now running our HFCS metabolism studies. These would be appropriate for customers who want deeper information on HFCS equivalence to sugar.

Thanks,

Adam Waehner
